MORE THAN ASSET PROTECTION...it's about life safety...

If you are building your own home, or simply looking to upgrade your existing home, our friendly staff can assist you in choosing the right technology.

We are a 5 Star HAI by Leviton dealer, one of the most trusted names in energy management and lighting controls. With our Honeywell TotalConnect™ security solutions that include Z-Wave™ technology, not only are you protected from burglary and fire, the system can also include advanced remote functions such as: controlling your locks, lights, thermostats, water heater, and other electronic devices with your smartphone or touch screen keypad.

From complete home theater systems to installing your flat screen TV's, our AV technicians can help design a reliable, easy to use system. Outside, we can provide custom security, surveillance and gate access solutions for homes and developments. High resolution cameras, license plate recognition, barrier gates and custom gate systems can work together in one simple, integrated package. And once it is installed, our service technicians provide the repairs and preventative maintenance to keep your systems reliable.

Finally, it is Florida and that does mean swimming pools. If you have a pool, or are having one built, we have solutions designed specifically for pool owners. Over the years we have installed many of the pool locks and pool alarms along the Emerald Coast. Our customer list includes some of the largest homes, businesses, and government agencies in Northwest Florida and is available upon request.
